swimming

EXPERIENCE

GROUPON TECHNOLOGY | Front-end Developer
June 2023 - Present | Pune , Maharashtra
- Developed extensive front-end pages using Next.js and React for a web application.
- Created a reusable component library to maintain consistency across the application.
- Created interactive elements and forms using React to enhance user experience.
- Integrated RESTful APIs with the front-end to display dynamic data on various pages.
- Implemented user authentication features including login and signup pages using React.
- Utilized JWT tokens for authentication and authorization, both on the front-end and back-end.
- Contributed to backend development, providing insights into Express.js and Node.js structures, enabling seamless integration with the Next.js front-end.
